BOTTOM LINE: We update our industry server model to reflect the latest available 2Q26 data from 650 Group & IDC. Key takeaways:

- **2Q26 traditional server market growth accelerated sequentially, driven by pricing.** 650 Group estimates the industry traditional compute market grew +91% in 2Q26 (v. +24% in 1Q26), with -9% decrease in units offset by +111% growth in ASPs. IDC estimates industry traditional (non-accelerated) server revenue was +81% year-over-year (v. +36% in 1Q26) driven by +17% growth in units and +56% growth in ASPs.
- **2Q26 AI server growth more balanced across units and ASPs.** 650 Group estimates the industry AI server market grew +94% in 2Q26 (v. +100% in 1Q26), with +20% increase in units and +62% growth in ASPs. IDC estimates industry AI (accelerated) server revenue was +43% year-over-year (v. 30% in 1Q26) driven by +10% growth in units and 30% growth in ASPs.
- **DELL gained market share in both traditional and AI servers year-over-year.** Per 650 Group estimates, DELL's C2Q26 traditional server revenue was up +278% year-over-year, driven by a +9% year-over-year increase in units and a +248% year-over-year increase in ASPs (v. +122% yoy reported growth for F2Q27, three months ending July 31, 2026); market share in traditional server was up to 29% in 2Q26 (v. 15% in 2Q25). 650 Group estimates that DELL also gained share in AI servers (17% in 2Q26 v. 13% in 2Q25) with +146% year-over-year growth driven by +80% unit growth and +37% ASP growth. IDC estimates that DELL maintained share in non-accelerated compute (13%) and gained +8 pts of accelerated compute (14% in 2Q26 v. 6% in 2Q25)
- **HPE market share in both traditional & AI server largely stable year-over-year.** Per 650 Group estimates, HPE's C2Q26 traditional server revenue was up +75% year-over-year, driven by a -3% year-over-year decline in units more than offset by at +82% year-over-year increase in ASPs; market share in traditional server was 12% in 2Q26 (v. 13% in 2Q25). 650 Group estimates that HPE lost share in AI servers (1% in 2Q26 v. 3% in 2Q25) with -10% year-over-year declines driven by -42% unit declines partially offset by +54% ASP growth. IDC estimates that HPE gained +1 pt share in non-accelerated compute (8% in 2Q26 v. 7% in 2Q25) and lost 1 pt of share in accelerated compute (2% in 2Q26 v. 3% in 2Q25)

- **SMCI 2Q26 market share mixed, with AI server softness offset by strength in traditional servers.** Per 650 Group estimates, SMCI's C2Q26 traditional server revenue was up +$2.9 bn (356%) year-over-year, driven by a -4% year-over-year decline in units more than offset by at +375% year-over-year increase in ASPs; market share in traditional server was up to 10% in 2Q26 (v. 4% in 2Q25). 650 Group estimates that SMCI lost share in AI servers (8% in 2Q26 v. 9% in 2Q25) with +66% year-over-year growth driven by +59% unit growth and +5% ASP growth. IDC estimates that SMCI gained share in non-accelerated compute (6% in 2Q26 v. 5% in 2Q25) and in accelerated compute (6% in 2Q26 v. 5% in 2Q25)

C2Q26 vendor market share (650 Group)

DELL gained share in the traditional & AI server markets year-over-year and maintained share gains from C1Q, with broad-based growth across enterprise and neocloud verticals driven by both unit growth and ASP uplift. Per 650 Group estimates:

- **DELL's C2Q26 traditional server revenue was up +$8.3 bn year-over-year to $11.3 bn,** or +278% year-over-year (v. $10.5 bn and +122% year-over-year reported; difference driven by Dell's July 31 quarter end v. 650 Group's June 30 quarter end), driven by a +9% increase in units and a +248% increase in ASPs. By vertical, 650 Group estimates that Dell's C2Q26 traditional server revenue growth was lead by neoclouds +502% yoy (+20% yoy units, +400% yoy ASPs) and enterprise +219% yoy (+8% units yoy, +195% ASPs yoy). DELL's C2Q26 traditional server hardware revenue of ~$11.3 bn was ~49% enterprise, ~45% neocloud, ~5% hyperscalers/service provider (v. 58%/28%/13% in C2Q25). DELL gained market share in traditional server revenue (29% in 2Q26 v. 15% in 2Q25), including share gains in neocloud (34% in 2Q26 v. 15% in 2Q25) and enterprise (36% in 2Q26 v. 21% in 2Q25).
- **DELL's C1Q26 AI server revenue was up +$8.7 bn year-over-year** (+146% year-over-year), driven by a +80% increase in units and a +37% increase in ASPs. By vertical, 650 Group estimates that Dell's C2Q26 AI server revenue growth was broadbased across neoclouds (+$7.9 bn) and enterprise (+$1.5 bn). DELL gained market share in AI server revenue (17% in 2Q26 v. 13% in 2Q25), including share gains in neocloud (51% in 2Q26 v. 47% in 2Q25) and enterprise (46% in 2Q26 v. 30% in 2Q25).

HPE market share in both traditional & AI server largely stable year-over-year. Per 650 Group estimates:

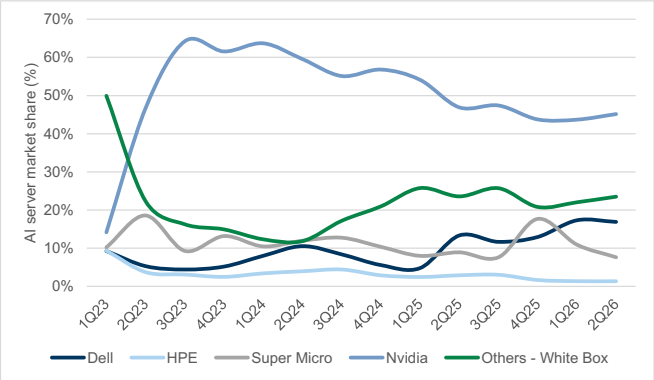

- **HPE's C2Q26 traditional server revenue was up +75% year-over-year** driven by unit -3% shipments and +82% increase in ASPs. By vertical, 650 Group estimates that HPE's C2Q26 traditional server revenue balanced growth across enterprise +89% (-2% units, +93% ASPs) and neoclouds +54% (-9% units, +69% ASPs). HPE delivered 12% market share in traditional server revenue (v. 13% 2Q25), with 20% enterprise traditional server market share (flat YoY) and 6% neocloud market share (v. 11% in 2Q25).

- **HPE's C2Q26 AI server revenue was down -10% year-over-year** (~+13% sequentially), with units -42% year-over-year and ASPs +54%. By vertical, 650 Group estimates that HPE's C1Q26 AI server revenue declines was balanced across neoclouds (-15%) and enterprise (-10%). HPE lost market share in the overall AI server revenue market in enterprise, with 17% share in 2Q26 v. 30% share in 2Q25.

SMCI lost AI server market share, but gained +6 pts of traditional server market share. Per 650 Group estimates:

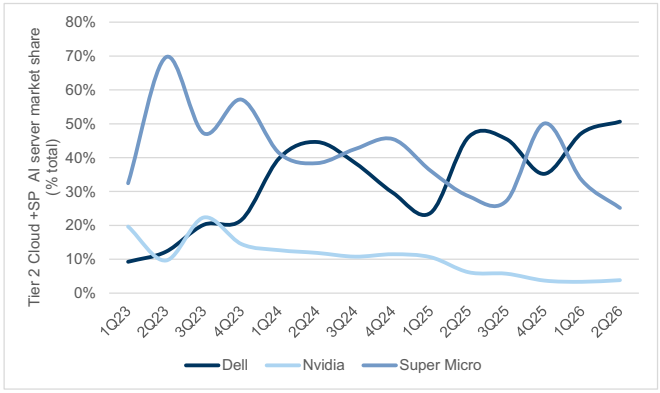

- **SMCI's C2Q26 traditional server revenue was up +$2.9 mn or +356% year-over-year**, with a -4% decrease in units offset by a +375% increase in ASPs. Per 650 Group, SMCI primarily sold traditional servers to neoclouds, where it has 22% market share in the quarter (v. 2% market share in 2Q25).
- **SMCI's C2Q26 AI server revenue was up +66% year-over-year**, driven by a +59% increase in units and a +9% increase in ASPs. By vertical, 650 Group estimates that SMCI's C2Q26 AI server revenue growth was driven by neoclouds (+94% year-over-year). SMCI lost market share in AI server revenue (8% in 2Q26 v. 9% in 2Q25), driven by weaker market share in neocloud (25% v. 29% in 2Q25)

Dell Technologies (DELL, Buy)

We are **Buy rated** on DELL with a 12-month target price of $570 (unchanged) based on 18.0x (unchanged) our NTM+1Y EPS.

Key risks: (-) Weaker than expected consumer and commercial PC market demand; (-) Worse-than-expected enterprise IT spending; (-) headwinds from hybrid work could result in reduced spending in enterprise IT; (-) Macroeconomic weakness could result in lowered consumer demand; (-) Pricing pressure could occur as competitors discount due to excess channel inventory and reduced demand, particularly in PCs; (-) Margin pressure from higher input costs; (-) Competition from white box manufacturers could occur, particularly in servers and storage; (-) Structurally lower AI server demand from neocloud cohort.

Super Micro Computer Inc (SMCI, Sell)

We are **Sell-rated** on SMCI with a 12-month target price of $34 (unchanged) reflecting 7.5X NTM+1 EPS (unchanged).

Key risks: (+) Stronger than expected demand for AI servers; (+) Market share gains; (+) Core operating margin improvement; (+) Customer diversification.

Hewlett Packard Enterprise Co. (HPE, Buy)

We are **Buy rated** on HPE with a 12-month target price of $75 (unchanged) based on 14x (unchanged) our NTM+1Y EPS.

Key risks: (-) Lower-than-expected corporate IT spending and data center capex could result in worse-than-expected hardware sales; (-) Competition from white box manufacturers could result in cannibalization in HPE's server market share; (-) Market share loss from customer churn during Juniper integration; (-) Component costs could be higher than expected, resulting in worse gross margins; (-) Corporate actions from strategic investors; (-) Failure to deliver market share gains in storage driven by a strategy shift towards selling more owned-IP storage products that carry higher gross margins; (-) Worse-than-expected demand for enterprise and sovereign AI data center infrastructure.

GS Factor Profile

The Goldman Sachs Factor Profile provides investment context for a stock by comparing key attributes to the market (i.e. our universe of rated stocks) and its sector peers. The four key attributes depicted are: Growth, Financial Returns, Multiple (e.g. valuation) and Integrated (a composite of Growth, Financial Returns and Multiple). Growth, Financial Returns and Multiple are calculated by using normalized ranks for specific metrics for each stock. The normalized ranks for the metrics are then averaged and converted into percentiles for the relevant attribute. The precise calculation of each metric may vary depending on the fiscal year, industry and region, but the standard approach is as follows:

Growth is based on a stock's forward-looking sales growth, EBITDA growth and EPS growth (for financial stocks, only EPS and sales growth), with a higher percentile indicating a higher growth company. **Financial Returns** is based on a stock's forward-looking ROE, ROCE and CROCI (for financial stocks, only ROE), with a higher percentile indicating a company with higher financial returns. **Multiple** is based on a stock's forward-looking P/E, P/B, price/dividend (P/D), EV/EBITDA, EV/FCF and EV/Debt Adjusted Cash Flow (DACF) (for financial stocks, only P/E, P/B and P/D), with a higher percentile indicating a stock trading at a higher multiple. The **Integrated** percentile is calculated as the average of the Growth percentile, Financial Returns percentile and (100% - Multiple percentile).

Financial Returns and Multiple use the Goldman Sachs analyst forecasts at the fiscal year-end at least three quarters in the future. Growth uses inputs for the fiscal year at least seven quarters in the future compared with the year at least three quarters in the future (on a per-share basis for all metrics).

For a more detailed description of how we calculate the GS Factor Profile, please contact your GS representative.

M&A Rank

Across our global coverage, we examine stocks using an M&A framework, considering both qualitative factors and quantitative factors (which may vary across sectors and regions) to incorporate the potential that certain companies could be acquired. We then assign a M&A rank as a means of scoring companies under our rated coverage from 1 to 3, with 1 representing high (30%-50%) probability of the company becoming an acquisition target, 2 representing medium (15%-30%) probability and 3 representing low (0%-15%) probability. For companies ranked 1 or 2, in line with our standard departmental guidelines we incorporate an M&A component into our target price. M&A rank of 3 is considered immaterial and therefore does not factor into our price target, and may or may not be discussed in research.

Ratings, coverage universe and related definitions

Buy (B), Neutral (N), Sell (S) Analysts recommend stocks as Buys or Sells for inclusion on various regional Investment Lists. Being assigned a Buy or Sell on an Investment List is determined by a stock's total return potential relative to its coverage universe. Any stock not assigned as a Buy or a Sell on an Investment List with an active rating (i.e., a stock that is not Rating Suspended, Not Rated, Early-Stage Biotech, Coverage Suspended or Not Covered), is deemed Neutral. Each region manages Regional Conviction Lists, which are selected from Buy rated stocks on the respective region's Investment Lists and represent investment recommendations focused on the size of the total return potential and/or the likelihood of the realization of the return across their respective areas of coverage. The addition or removal of stocks from such Conviction Lists are managed by the Investment Review Committee or other designated committee in each respective region and do not represent a change in the analysts' investment rating for such stocks.

Total return potential represents the upside or downside differential between the current share price and the price target, including all paid or anticipated dividends, expected during the time horizon associated with the price target. Price targets are required for all covered stocks. The total return potential, price target and associated time horizon are stated in each report adding or reiterating an Investment List membership.

Coverage Universe: A list of all stocks in each coverage universe is available by primary analyst, stock and coverage universe at https://www.gs.com/research/hedge.html.

Not Rated (NR). The investment rating, target price and earnings estimates (where relevant) are removed pursuant to Goldman Sachs policy when Goldman Sachs is acting in an advisory capacity in a merger or in a strategic transaction involving this company, when there are legal, regulatory or

policy constraints due to Goldman Sachs' involvement in a transaction, and in certain other circumstances. **Early-Stage Biotech (ES).** An investment rating and a target price are not assigned pursuant to Goldman Sachs policy when this company has neither a drug, treatment or medical device that has passed a Phase II clinical trial nor a license to distribute a post-Phase II drug, treatment or medical device. **Rating Suspended (RS).** Goldman Sachs Research has suspended the investment rating and price target for this stock, because there is not a sufficient fundamental basis for determining an investment rating or target price. The previous investment rating and target price, if any, are no longer in effect for this stock and should not be relied upon. **Coverage Suspended (CS).** Goldman Sachs has suspended coverage of this company. **Not Covered (NC).** Goldman Sachs does not cover this company.

General disclosures

This research is for our clients only. Other than disclosures relating to Goldman Sachs, this research is based on current public information that we consider reliable, but we do not represent it is accurate or complete, and it should not be relied on as such. The information, opinions, estimates and forecasts contained herein are as of the date hereof and are subject to change without prior notification. We seek to update our research as appropriate, but various regulations may prevent us from doing so. Other than certain industry reports published on a periodic basis, the large majority of reports are published at irregular intervals as appropriate in the analyst's judgment.

Goldman Sachs conducts a global full-service, integrated investment banking, investment management, and brokerage business. We have investment banking and other business relationships with a substantial percentage of the companies covered by Global Investment Research. Goldman Sachs & Co. LLC, the United States broker dealer, is a member of SIPC (https://www.sipc.org).

Our salespeople, traders, and other professionals may provide oral or written market commentary or trading strategies to our clients and principal trading desks that reflect opinions that are contrary to the opinions expressed in this research. Our asset management area, principal trading desks and investing businesses may make investment decisions that are inconsistent with the recommendations or views expressed in this research.

The analysts named in this report may have from time to time discussed with our clients, including Goldman Sachs salespersons and traders, or may discuss in this report, trading strategies that reference catalysts or events that may have a near-term impact on the market price of the equity securities discussed in this report, which impact may be directionally counter to the analyst's published price target expectations for such stocks. Any such trading strategies are distinct from and do not affect the analyst's fundamental equity rating for such stocks, which rating reflects a stock's return potential relative to its coverage universe as described herein.

We and our affiliates, officers, directors, and employees will from time to time have long or short positions in, act as principal in, make a market or act as liquidity provider in, and buy or sell, any securities, derivatives, or other financial instruments referred to in this research (including any financial instruments issued by the companies referred to herein), unless otherwise prohibited by regulation or Goldman Sachs policy.

The views attributed to third party presenters at Goldman Sachs arranged conferences, including individuals from other parts of Goldman Sachs, do not necessarily reflect those of Global Investment Research and are not an official view of Goldman Sachs.

Any third party referenced herein, including any salespeople, traders and other professionals or members of their household, may have positions in the products mentioned that are inconsistent with the views expressed by analysts named in this report.

This research is not an offer to sell or the solicitation of an offer to buy any security in any jurisdiction where such an offer or solicitation would be illegal. It does not constitute a personal recommendation or take into account the particular investment objectives, financial situations, or needs of individual clients. Clients should consider whether any advice or recommendation in this research is suitable for their particular circumstances and, if appropriate, seek professional advice, including tax advice. The price and value of investments referred to in this research and the income from them may fluctuate. Past performance is not a guide to future performance, future returns are not guaranteed, and a loss of original capital may occur. Fluctuations in exchange rates could have adverse effects on the value or price of, or income derived from, certain investments.

Certain transactions, including those involving futures, options, and other derivatives, give rise to substantial risk and are not suitable for all investors. Investors should review current options and futures disclosure documents which are available from Goldman Sachs sales representatives or at https://www.theocc.com/about/publications/character-risks.jsp and https://www.goldmansachs.com/disclosures/cftc_fcm_disclosures. Transaction costs may be significant in option strategies calling for multiple purchase and sales of options such as spreads. Supporting documentation will be supplied upon request.

Differing Levels of Service provided by Global Investment Research: The level and types of services provided to you by Goldman Sachs Global Investment Research may vary as compared to that provided to internal and other external clients of GS, depending on various factors including your individual preferences as to the frequency and manner of receiving communication, your risk profile and investment focus and perspective (e.g., marketwide, sector specific, long term, short term), the size and scope of your overall client relationship with GS, and legal and regulatory constraints. As an example, certain clients may request to receive notifications when research on specific securities is published, and certain clients may request that specific data underlying analysts' fundamental analysis available on our internal client websites be delivered to them electronically through data feeds or otherwise. No change to an analyst's fundamental research views (e.g., ratings, price targets, or material changes to earnings estimates for equity securities), will be communicated to any client prior to inclusion of such information in a research report broadly disseminated through electronic publication to our internal client websites or through other means, as necessary, to all clients who are entitled to receive such reports.

All research reports are disseminated and available to all clients simultaneously through electronic publication to our internal client websites. Not all research content is redistributed to our clients or available to third-party aggregators, nor is Goldman Sachs responsible for the redistribution of our research by third party aggregators. For research, models or other data related to one or more securities, markets or asset classes (including related services) that may be available to you, please contact your GS representative or go to https://research.gs.com.

Disclosure information is also available at https://www.gs.com/research/hedge.html or from Research Compliance, 200 West Street, New York, NY 10282.
